<b>Office Action Summary</b>	<b>Application No.</b> 09/996,439	<b>Applicant(s)</b> GREGORY ET AL.	
	<b>Examiner</b> Peter R. Brown	<b>Art Unit</b> 3636	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 July 2009.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Claims 28-35,37-47 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175.

A reissue application in which the *only* error specified to support reissue is the failure to include one or more claims that is/are narrower than at least one of the existing patent claim(s) without an allegation that one or more of the broader patent claim(s) are too broad together with an amendment to such claim(s), does not meet the requirements of 35 USC 251. Moreover, the error relied upon by the applicant should be described in the reissue oath or declaration as correcting the error of claiming "more than" the patentee had a right to claim.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Claims 28-35,37 and 38 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. Note that the abandonment of the parent application, SN 09/239054 served to eliminate the filing date thereof as a priority date for the present application. A claim is broader in scope than the original claims if it contains within its scope any conceivable product

or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

In comparing the method claims 28-35,37 and 38 to those of the original patent (claims 8 and 9), there are several instances of language which is considered broader than that found in the patent.

In claim 28, the "seat" should be defined as a "vehicle seat". In line 6, the term "to at least one air subchannel", should be "through at least one air subchannel". In line 7, "positioned on", should be "disposed adjacent the top surface of". In line 12, "seat covering substantially encapsulating", should be "seat covering adjacent the air porous member and substantially encapsulating...". With the exception of the term "vehicle", the above also apply to claim 31.

Claims 31-33,46 and 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 31, lines 6 and 7, it appears that "to resist crushing...top surface", should in fact be "disposed within the top surface", for clarity, as the "resist crushing" limitation is recited later in the claim.

In claim 47, the "air-impermeable barrier", has not been sufficiently located and interconnected relative to the other structural elements, in a manner to positively define the invention.

The claims are allowable over the prior art of record.
